

TIMES WILL BE BETTER.

THE JOURNAL is not a pessimist. It believes times will be better. It stands the victorious administration and even the Cleveland administration in hand to make times better.

The honest dollar people who talk so loud about maintaining the honor and integrity of the country have had their way. The dollar will not be debased, as they call it. It can now be put out. Its quality is unimpaired. It ought now to circulate freely and we hope and believe it will.

We believe improvements will now be made. Labor will be employed. Prosperity will be increased. That is sincerely the desire of the people who voted for McKinley. They are honest in this and we believe will realize their hopes in partly realizing better times right away or at least within a year.

THE INDIAN VOTE.

A correspondent at McMinnville writes as follows:

"Are the Indians on the reservations citizens? If the statute which I have set out above is the only act bearing on Indian citizenship, they are not citizens, because they cannot be citizens under this act unless they reside separate and apart from any tribe, and adopt the habits of civilized life. The Indians in Yamhill and Polk counties reside on the reservation and are under the charge of an Indian agent. It is not according to the habits of civilized life to be in charge of an agent, appointed by the United States government. These Indians are still 'wards of the nation,' under a sort of guardianship. Civilized people do not so live. It seems to me that these red men are not citizens, and have no right to vote. There may be some other statute bearing on this question which I have not examined. If there is, I should like to have the Oregonian publish it. If they have no right to vote, they should be compelled to refrain from so doing in the future, and if it is illegal to sell or give them intoxicating liquors, the disgraceful practice which has gone on unpunished for some time should be brought to a hasty conclusion. I call attention to these questions, hoping that selling liquors to these half-civilized people and voting them may be stopped."

This matter will probably be fully investigated in the congressional election contest between W. S. Vandenburg and Thos. Tongue. Tongue's title rests almost entirely on the Indian vote. If the reservation Indian cannot vote Mr. Tongue is too honest a man to even attempt to hold Mr. Vandenburg's seat.

A PENNY PAPER.

Judge Cooley, in his "Blackstone's Commentaries," says: "The establishment of penny newspapers for the cheap and rapid diffusion of important news has contributed more to the spread of intelligence among the people and to increase the general education of the masses of the people than any one other cause." THE JOURNAL was the first penny paper established on the Pacific coast, and its circulation in this campaign has nearly tripled.

THE JOURNAL is proud of its labors in uniting the people of this state. There has never been in Oregon an organization of the people capable of checking the aggressions of the mercenary politicians who have preyed upon every department of this state. These men have overridden the constitution, enacted the most vicious laws, practiced the most shameful politics from primaries to election of senators, and the people have paid the bill in high taxes. Circulate THE ONE CENT DAILY.

The Whole Story Of the great cures accomplished by Hood's Sarsaparilla is quickly told. It purifies and enriches the blood, tones the stomach and gives strength and vigor. Disease cannot enter the system fortified by the rich, red blood which comes by taking Hood's Sarsaparilla.

Hood's Pills cure nausea, sick headache, indigestion, biliousness. All druggists, 25c.

CASITORIA. The family signature of Dr. H. H. Hatcher is on every wrapper.

LANE COUNTY.

A member of the Bryan campaign committee in Lane county writes THE JOURNAL as follows:

"The smoke of the great battle is now clearing away and while the silver forces of Lane county feel keenly the sting of defeat, they are by no means conquered. They shout and cheer the great leader W. J. Bryan, as lustily today as they did in the thick of the fight, and declare him greater in defeat than ever before. I drop you this line to thank you from the bottom of my heart for the gallant fight you have made in this campaign for the principles which are right and will in the end prevail.

I also congratulate you on receiving the highest vote on our ticket in this county.

The Republican managers are very sore over their defeat in this county and we are very proud of the local victory. We made a great fight against heavy odds and did as well or better than any county in the state considering all circumstances."

The Lane county Bryan workers have any reasons to be proud. They had not only a powerful organization against them, but they had to come in contact with treacherous elements in their own ranks. Republicans and Democrats of prominence have been parading themselves as silver men before the people of Lane county until the people were confused and did not know who to believe. These pretended silver men have now all taken their places in the gold party and can no longer mislead anyone as to where they stand.

So far as the editor of THE JOURNAL is concerned, he is grateful to his friends in Lane and every county. He makes no pretensions to popularity or superiority in political morality to the rest of mankind. He wants no more honest dollars than any other fairly honest man. A dollar he can support his family with is good enough.

WHAT WE WANT.

We are modest. A Salem man is always modest.

Salem wants a creamery, a flaxmill and a beet sugar factory. We surely have the soil, the water, the climate and the people to make these three things go.

After we get through our political celebrations we are going to work to get these three things.

We are going to lay aside our modesty, if necessary, in order to succeed.

Marvelous Results.

From a letter written by Rev. J. Gundersen, of Diamond, Mich., we are permitted to make this extract: "I have no hesitation in recommending Dr. King's new discovery, as the results were almost marvelous in the case of my wife. While I was pastor of the Baptist Church at Rives Junction she was brought down with pneumonia succumbing to La Grippe. Terrible paroxysms of coughing would last hours with little intermission and it seemed as if she could not survive them. A friend recommended Dr. King's New discovery; it was quick in its work and highly satisfactory in result." Trial bottles free at F. & A. Legg's Drug Store. Regular size 50 cents, and \$1.00.

Let The Whole World Know The Good Dr. Miles' Heart Cure Does

HEART DISEASE has its victim at a deadly distance. Always tonight that heart disease is lurking, when the symptoms become well defined, the patient becomes alarmed and a nervous panic takes place. But when a cure is found and a new era of life opens, there is great rejoicing and desire to "let the whole world know." Mrs. Laura Winefinger, of Beloit, Kansas, writes: "I desire to let the whole world know what Dr. Miles' Heart Cure has done for me. About ten years I had pain in my heart, shortness of breath, palpitation, pain in my left side, oppressed feeling in my chest, weak and hungry spells, bad dreams could not lie on either side, was numb and suffered terribly. I took Dr. Miles' Heart Cure, and before I finished the second bottle I felt its good effects. I feel now that I am fully recovered, and that Dr. Miles' Heart Cure saved my life." Dr. Miles' Heart Cure is sold on guarantee that first bottle benefits, or money refunded.

Farm Department.

—EDITED BY A FARMER.

HOW TO HELP THE FARMER.

That is the question. McKinley says open up more factories. Make more manufactured goods to sell. Carnegie builds two new blast furnaces. That will employ more laborers in Pittsburgh. He will build more railroads. That means more millions of bonds and stocks sold in Europe and more millionaires in America.

How help the farmer? A Salem gold paper says, watch silver go down to 50 cents an ounce and lower. Will that help the farmer, when the gold countries of Europe buy that cheap silver to buy cheap products in silver standard countries that our farmers have to compete with in the open market? We shall see.

If Europe should have short crops or Asia have a famine, by the suffering of millions we could get better prices as a result. But that is purchasing prosperity at an awful sacrifice and cannot be relied upon to help our farmers.

The Hop Outlook.

The shortage in this year's hop crop has been more than has been anticipated by even the dealers who are supposed to keep posted on the hop harvest. As a consequence hops have taken a decided raise in price with every prospect that there will be no dropping back to ruinously low rate of two months ago. The small quantity harvested is only partially responsible for the raise in price, the leading factor being the superior quality of this year's crop over that of the past two years. There is enough of old hops on hand to last the brewers for another year. Heretofore the growers could sell anything they baled, with the result that much of the hops put on the market was carelessly picked and not always dried and cured as they should have been. At the beginning of the hop harvest this year the extreme low price of hops made it apparent that only first class hops could be sold that the greatest care should be exercised to secure a clean and well cured article. This care with the greater experience that they have attained has made the crop of '96 one of the best ever put on the market. As a result of the fine article offered the brewers are buying the new crop in preference to the old. The lesson that this year teaches our hop raisers, is that there money in the business and only send out a strictly first class article. The indications are that the price will be at a paying rate next year. After giving their yards the necessary cultivation the growers who have realized the best prices this year are the ones who had an expert inspector precede the pickers each day through the yard and break down every vine that showed indications of mold or was inferior in any way, so as to preclude the possibility of the pickers from getting the poor hops, which they so often do by reason of their lack of experience in judging the quality, or haste in filling their boxes. A rigid yard inspection makes it impossible for the sale of the crop to be injured by a few mouldy or half-ripe hops that the pickers may have gathered and with the proper skill in curing, our hop men can build up a reputation for Oregon hops that will give them a paying market for each year's crop.

Put your poultry flock on a cash basis, as soon as possible. Dispose of all surplus cockerels and off hens. Stop the leak in the feed bin.

One rule in pruning should be to thin out every year all the old exhausted wood, all weak, young shoots and all that cannot reach full light.

The farmers of Tillamook, have organized a branch of the Oregon State Dairy Association, to be known as the Tillamook Branch of the State Association.

Sixteen good cows to one poor one. The reverse, sixteen poor cows to one good one, is what too often makes the dairy farmer ready to listen to the humbug politician.

The larger the summer and fall growth of strawberry plants the larger the crop of fruit. To secure this through cultivation and liberal manuring will be found necessary.

About 10,000,000 cattle are now to be found in the Argentine Republic. They are all descendants of eight cows and one bull, which were taken to Brazil in the middle of the sixteenth century.

A commercial jelly factory should be located somewhere in the Willamette valley, whereby some of the cheap compounds, sold as fruit jelly, which are shipped in from the East, could be displaced.

Have some choice poultry to turn off just after Thanksgiving. The market is not so liable to be glutted. Get your layers in shape, as eggs are getting scarcer and you will be ready to reap the high price.

The largest sheep owner in the world is said to be S. McCaughey, of the Coonong Station, at Jeri derie, New South Wales. He has 3,000,000 acres of land and last season he shored 1,000,000 sheep.

The Oregon State Poultry Association has decided to hold its next annual exhibition the first week of January, commencing January 4, 1896, and continuing five days. W. W. Brown, of Ogden, Utah, has been engaged as judge.

The effort made by the Oregon Association of Nurserymen to make the prices of trees uniform seems to have failed, owing to the lack of support by the nurserymen who signed the agreement.

Warmth, light, chopped food, bone meal, pure water, a varied diet, including green stuff and parched grain cannot fail to make an ordinary hen not over two or three years old lay

NOTES.

A little plastering is good grit for hens.

Sow some rye for early spring feed for your lambs.

A sheep in proper condition will never shed its own wool.

Be sure that in your herd each and every cow supports herself.

If you are going to sow vetches now is the time; the sooner the better.

Ventilate your orchard soil thoroughly, by giving it thorough drainage.

A dark and dingy stable is too often the cause of sickness to your stock.

In the piney woods of Georgia a sheep only costs 15 cents a year to raise.

Dispose of your old sheep early, especially when their teeth become impaired.

The full value of the wheat bran is nearly all returned to the soil in manure.

Lime, kerosene and carbolic acid are the three saving graces of the poultry breeder.

Cull out all undesirable birds this month. It does not pay to carry such into the winter.

Sour fruit is best kept away from poultry; also tomatoes are said to discourage egg laying.

The number of horses butchered for food in Paris has increased from 10,000 in 1878 to 30,000 in 1895.

It is cheaper to conserve the animal heat with boards than to make good its rapid loss with more feed.

Churning at too high temperature, or too long, will produce greasy butter in which the grain is injured.

It will require seven pounds of skimmed milk to equal one pound of lean beef for flesh forming qualities.

The county fair of Whitman county, Washington, paid this year 144 premiums on fruit amounting to over \$100.

The number of milch cows in Oregon, Washington and Idaho, has increased whereas they have decreased in every other state.

The growth of the dairy industry in California is shown by the fact that cows in that state increased 67,000 in the last six years.

Experiment a little with a small plot of flax for fibre. These long wet winter days would be a fine time to work it up.

Put your poultry flock on a cash basis, as soon as possible. Dispose of all surplus cockerels and off hens. Stop the leak in the feed bin.

One rule in pruning should be to thin out every year all the old exhausted wood, all weak, young shoots and all that cannot reach full light.

THE KNOTTY PROBLEM

—how to accomplish the most work with the least labor, time and money, has been solved.

GOLD DUST

Washing Powder

makes a woman's work light—sets her mind at rest—keeps her purse closed. Get it before you forget. Sold everywhere. Made only by

THE N. K. FAIRBANK COMPANY,
St. Louis, Chicago, New York, Boston, Philadelphia, San Francisco.

reasonable well during the winter months.

Cheesemakers of United States have a good chance now to regain the confidence of the British cheese consumers. Cheese is short in England, and there is likely to be good demand for our product if it can be guaranteed as possessing good quality.

Beware of this fraud, it is called "collarine." It is a compound for the preservation of milk. It has been pronounced a fraud and injurious to the health, by the experiment station at Cornell University, of New York.

The motto of every farmer should be: To raise everything he has to eat that it is possible, and what you have to buy, pay the cash for and never sell anything only for cash. Do away as much as possible with the barter and trade business, and educate the merchant to pay cash, by buying for cash. Get on a cash basis. When hard times press the farmer, he can live almost entirely upon the products of the farm. By living nearly entirely on the products of your own labor, along with frugal habits, and the present upward tendency of the markets, there is reason to believe that the farmer will have a better show now to get out of debt.

JOHN HUGHES,
Dealer in groceries, paints, oils, window glass, varnishes, and the most complete stock of brushes of all kinds in the state. Artists' materials, lime, hair, cement and shingles, and finest quality of grass seeds.

NEW ADVERTISEMENTS.
